

Bee Mixture

Created to attract and maintain bumblebee populations

Bee Mixture is a blend designed to attract and maintain bumblebee populations.

It does exactly what you'd expect – attracts and sustains bumblebees. In fact, you may actually be able to hear this mixture buzz!

It contains Red Clover, Sainfoin and an abundance of purple flowering Phacelia. Bees just love Phacelia! In addition, this plant assists in the establishment of the other two varieties.

Bee mixture produces a beautiful display of purple flowers. Bees simply can't resist this mixture. You are rewarded with the noisy sound of BUZZING!

This mixture is suitable for Countryside Stewardship Schemes.

Supplied in 6 kilo, 0.5 hectare packs
